SFXR

## BASICS

A browser-based sound effect generator inspired by retro 8-bit video games that allows users to create, play, and export custom chiptune-style sounds for game interfaces, interactions, and events.

URL / Access: <https://sfxr.me/>

**Type of sounds:** Sound effects (e.g., pickups, explosions, jumps, power-ups)

## WHEN TO USE IT

Use SFXR – Sound effects when you need quick, custom sound effects for game interactions - such as a character jump, collision, correct or incorrect answers, countdown alerts, or level transitions - especially in digital escape rooms or retro game-themed activities.

## SELECTION OF SPECIFIC SOUNDS/MUSIC

### Link to a gallery of sounds/music

**Link:** <https://sfxr.me/>

**Description:** Interactive sound generator providing a gallery of built-in sound effect presets (e.g., pickups, explosions, jumps, power-ups) and real-time controls for creating and tweaking custom audio clips. Users can preview sounds instantly and download them as WAV files for use in games, interactive content, or digital escape rooms.

### For background / atmospheric music

Theme	Description
